

**KYLE ER
& HOSPITAL**

Date: _____

Elf's Name: _____

The Elf above was examined and diagnosed with a severe infection of Reindeer Influenza. This form of Reindeer Flu can not be transferred to humans or pets but precaution must be taken!

The Elf must not be moved for 1 week of full rest. No flying to the North Pole, moving locations, drinking syrup, eating candy canes, dancing, and absolutely no mischief. The elf can still take notes during this time and may report back their findings to the North Pole after 1 week of full rest.

Sincerely,

Santa Claus
